Portfolio: https://yashwant.is-a.dev

Full Stack Developer with experience in building responsive, scalable web applications. Proficient in HTML, CSS, JavaScript, React, Node.js, and Python, with expertise in RESTful APIs, third-party integrations, and databases like MongoDB and MySQL. Strong problem-solving skills, focused on clean, maintainable code, and adaptable to both independent and collaborative agile environments.

PROJECTS

Student Registration System

- Implements full CRUD functionality to manage student data effectively.
- Uses Django's MVC architecture with db.sqlite3 for backend data storage.
- Uses HTML for structure and external CSS for styling the user-friendly frontend forms and views.

DevFolio: A Blogapp

- Built using Django and React integration for managing blogs and user interaction.
- Allows users to create, read, update, and delete blog posts with a responsive and modern interface.
- Deployed on Render, providing seamless access to both frontend and backend.

QuickShow – A Movie Ticket Booking Platform

- Developed a full-stack movie ticket booking platform using the MERN stack with Clerk authentication and Stripe integration.
- Enables users to browse movies, select seats, and make secure payments while providing an admin dashboard for show management
- Deployed on Vercel with a responsive React frontend and optimized backend APIs for seamless performance.

SKILLS/ LANGUAGES/ TOOLS

- C, Python, Java, JavaScript, SQL, Linux
- ReactJS, Mongo DB, Node JS, Express JS
- HTML, CSS, Tailwind CSS
- Django, NumPy, Pandas, Bootstrap
- GitHub, Postman, My SQL
