PROFESSIONAL SUMMARY

Full Stack Developer proficient in **React.js, JavaScript, Django, Python, RESTful APIs, SQL, MongoDB, and MySQL**, with experience developing end-to-end **Web applications**. Demonstrated expertise in **user authentication and authorization (JWT)**, **admin dashboards**, **API integration**, and **database design**. Familiar with **version control (Git/GitHub)**, **cloud deployment**, and modern UI frameworks like **Tailwind CSS**. Adept at collaborating in agile teams and delivering high-quality, scalable solutions.

TECHNICAL EXPERIENCE

QuickShow: A movie ticket booking App | [\[Link\]](#) [\[Code\]](#)

MERN Stack, Tailwind CSS, Docker, Vercel

- Built a **full-stack** movie ticket booking platform with **Stripe** (test mode) payments, seat selection, and real-time movie browsing.
- Integrated **Clerk authentication** with role-based access control for secure login, signup, and admin dashboard management.
- Implemented **TMDB API** to dynamically fetch and display movies, posters, ratings, and show details.
- Containerized frontend and backend using **Docker** with a **multi-stage build** and **Nginx** for optimized production deployment.
- Deployed the application on **Vercel** with environment variable setup and production-ready routing.

DevFolio: A Blogapp | [\[Link\]](#) [\[Code\]](#)

Django, SQLite, React.js, Tailwind, REST API, Docker, Render

- Built a **full-stack** blogging platform with **secure authentication and role-based CRUD operations** for admins and users.
- Developed **REST APIs** using **Django REST framework** and integrated them with a responsive **React** frontend styled using **Tailwind CSS**.
- Containerized** frontend and backend services using **multi-stage Docker builds** with **Gunicorn** and **Nginx** for production-ready deployment.
- Configured **Docker Compose** for seamless frontend-backend orchestration and consistent development workflows.
- Deployed the application on **Render** with integrated **React frontend and Django backend**.

Sweet Shop Management System | [\[Link\]](#) [\[Code\]](#)

Django, REST API, SQLite, React.js, Tailwind CSS, Docker, Render

- Built a **full-stack** Sweet Shop Management System using **Django REST Framework** backend and **React** frontend with clean **API-driven architecture**.
- Implemented **admin-based CRUD operations** to add, update, delete, and restock sweets efficiently.
- Integrated **JWT authentication** with role-based access control for secure user and admin workflows.
- Containerized both frontend and backend using **multi-stage Docker builds** for optimized production-ready deployment.
- Deployed services separately on **Render**, ensuring scalable and real-world production-level hosting setup.

LANGUAGES/ SKILLS/ TOOLS

- Programming Languages:** JavaScript, Python, SQL
- Frontend Technologies:** React.js, HTML, CSS, Bootstrap, Tailwind CSS
- Backend Technologies:** Node.js, Express.js, REST APIs, Django
- Databases:** MySQL, MongoDB
- Tools & Cloud Platforms:** Git, GitHub, AWS EC2, Vercel, Render, Postman
- DevOps:** Linux, Shell Scripting, Docker

EDUCATION

GIET University

Master of Computer Applications, CGPA: 8.25

Odisha, India

SEPT 2023 – JULY 2025

CERTIFICATIONS

- Python Full Stack Developer Training Certification from DATAPRO, Visakhapatnam.
- MEAN Certification from MCAPL.
- DevOps Certification from Train with Shubham (pursuing)
